

Forest Products Industry Air Quality Management Services

ORTECH is your partner in air compliance, with over 50 years experience in:

- Stack Testing
- Odour Assessment
- Opacity Observations
- Ambient Air and Fenceline Monitoring
- Advance Computer Dispersion Modelling
- Emission Inventories and Permitting

Stack Testing, Odour Assessments and Verifications

We're national leaders in emission testing, odour assessment and independent verification of control equipment performance. ORTECH has the largest team of source sampling experts, trained odour panelists and the latest equipment available anywhere in Canada.

Air Permitting and Approvals

Rely on us to provide completed air permit applications, MOE-compliant documentation and emission summary and dispersion modelling reports (ES&DM), plant-specific inventory databases and complete emission database management. We help our clients obtain permits quickly and satisfy their regulatory requirements cost-effectively.

Emission Inventories & Modelling

ORTECH works with plant staff to develop whole-facility emission inventories using the right combination of engineering calculation techniques, actual measurements, emission database management (NPRI reports), and the latest in air dispersion computer modelling.
